

8BHE

8" - Electrobomba centrífuga sumergible en AISI 304

Electrobomba centrífuga sumergible 8", enteramente construida en **Ac. Inox. AISI 304 (opcional versión AISI 316)**. La superficie pulida de impulsores y difusores ofrecen una excelente eficiencia y fiabilidad. Abastecimiento de agua en instalaciones y plantas domésticas, industriales y agrícolas. Plantas de tratamiento de agua (ósmosis inversa, etc.). Instalaciones de presurización y contraincendios. Riego, fuentes y lumiartechnia. Lavado y vehiculación de agua limpia o moderadamente agresiva. Posibilidad de ser instalada tanto horizontal como en posición vertical.

Práctica y fácil de usar

Baja sonoridad

Funcionamiento en posición horizontal

Bomba fabricada en AISI 304

Disponible en AISI 316

Prestaciones de bomba

| | |
|-------------------------------------|--|
| Max. inmersión | 150 m. (para motores de aceite) 350 m. (para motores de agua) Opcional |
| Temperatura máx. del líquido | 50°C |
| Máx. contenido en sólidos | 50 ppm. |

Materiales

| | |
|--|---------------------------|
| Soporte motor, acoplamiento, etapas, válvula no retorno, tirantes, guardacable, cuerpo de impulsión y tornillería | Ac. Inox. AISI 304 (8BHE) |
| Impulsores y difusores | Ac. Inox. AISI 304 (8BHE) |
| Eje motor | Ac. Inox. AISI 304 |

Solicitar: Doble cubrecable para motores con arranque Δ / Δ

Datos técnicos del motor

| | |
|----------------------------|---|
| Polos | 2 - 50 Hz |
| Refrigeración | Motor en baño de líquido refrigerante atóxico. |
| Aislamiento | Clase F |
| Grado de protección | IP68 |
| Tensión | - Trifásica 220V/380V. +6-10% - Trifásica 380/660V. +6-10% |
| Acoplamiento | NEMA. |

Conexiones

| | |
|------------|-------------------|
| DNI | Rosca interna: 5" |
|------------|-------------------|

Accesorios

- Suplemento doble cubrecable**
Para motores con arranque Δ / Δ
- Cuadros eléctricos**
Cuadros para bombas sumergibles.

Tabla de características - Bombas 8BHE
